Contact Music Festival 2014

January 19-20, 2015; Vancouver, British Columbia

The UBC Mass Gathering Medicine Interest Group is proud to be co-hosting a conference focused on reducing drug and alcohol related harms at Canadian music festivals with the Canadian Centre on Substance Use.

Recent team publications:

- Conceptualizing the impact of special events on community health service levels: An operational analysis
- Mortality at music festivals: Academic and grey literature for case finding at mass gatherings (in review)
- Mass gathering health research foundational theory: Part 1, Population modeling for mass gatherings & Part 2, Event modeling for mass gatherings

Our Mission Statement

To support the further development of expertise in the fields of mass gathering and disaster medicine – provincially, nationally, and internationally – including clinical practice, research, policy, and education.
