INVITATION

2015 Multi-Agency Simulation (MAS) Event

The Justice Institute of British Columbia and BC’s Mobile Medical Unit (MMU) invite you to the third annual 2015 Multi-Agency Simulation Event, being held on November 26, 2015.

This unique event brings together students and professionals in various fields including ambulance, police, fire services, nursing, residents, Canadian Armed Forces and search and rescue to simulate large-scale disaster response and emergencies. Focusing on inter-professional teamwork and collaboration, this health education training simulation will be held at the JIBC Chilliwack campus.

British Columbia’s Mobile Medical Unit, a state-of-the-art mobile hospital that deploys across the province in response to disasters and to support renovations, will serve as the platform for hospital care. The unit’s specialized team of clinicians and educators will also be leading the simulations. Each participating profession will have their own set of simulations that relate directly to their professional roles as well as contribute to the event's overall objectives.

These events help to best prepare our allied health and emergency providers while offering a unique opportunity to showcase how various professions bring their strengths together to address a multitude of real-life scenarios.

When: November 26, 2015
Time: 8:30 a.m. to 3:30 p.m.
Where: JIBC – Chilliwack Campus
5470 Dieppe St. Chilliwack

We are looking for a variety of agencies and personnel to participate in this simulation event and contribute to this shared learning opportunity. Roles include both participating in the simulations and leading specific components of the simulations that relate to your area of expertise.
